Albany Schools Plan Revision of Grading System

Almost at the close of the third public hearing on Albany Elementary School grading systems Tuesday night before the school board a move by Board Member Leslie Bennett apparently put an end, for the time at least, to a controversy which has been in progress for several months.

Bennett moved that a study and revision of the present system should be made by the district staff. The motion was promptly seconded by Board Member John Longaker and was passed unanimously. Following this action Dr. Charles W. Koch of 1451 Marin Avenue, who had first presented the request for a change several months ago, praised the action as a "sound judgment by the board, and very excellent."

The move calls for a trial period and a later discussion with parents as to whether or not the revised system is in general keeping with their thoughts on the matter.

Children's Hospital Lists 655 Albany Patients in Year

Albany youngsters cared for in the outpatient department of children's Hospital of the East Bay last year received 655 services, it is reported to branch and hospital members in the area.

Dr. Edith Meyers, chief of the outpatient department at the famous East Bay pediatric center, spoke recently before a meeting at the hospital for the officers of the hospital's 65 auxiliary branches.

She pointed out that the outpatient department of the hospital is composed of a group of clinics where children are treated, then they go home. "These children are not sick enough to be admitted to the hospital as bed patients," she explained.

Children from infancy through 14 years of age are accepted as patients. They are members of families who can afford to pay something for their medical care, but not the whole of it. Dr. Meyers said that if a family is eligible for county health services, children are referred to the county clinic. On the other hand, if they can afford to pay the fees of private doctors, they are referred to a practicing physician.

Hove, practicing attorney and Alameda City Councilman, and previously for seven years with the Federal Bureau of Investigation. The attendance was a record for the new luncheon location.

NEW RABIES ORDINANCE APPROVED BY COUNCIL

Albany city council passed to first reading a new ordinance governing the quarantine of dogs and other animals at its meeting on Monday night, but forwarded a request to Dr. Robert T. McMahon, City Health Officer, asking for clarification of some of the technical terms involved before final action next Monday.

As covered by the new ordinance action by the health officer would be required to put its terms into effect during periods in which the city might be declared an "endemic" or "epidemic" area for rabies.

If a quarantine were declared it would be necessary to keep all dogs inside and muzzled, or on a leash not more than five feet in length and under control of someone 14 years of age or older. The terms of the ordinance in the main follow those of the State law.

Control of poultry and rabbit slaughtering within the limits of the city was again up for discussion. The new ordinance designed to tighten the terms of the old law was read and discussed, with the council finally deciding to have the city attorney discuss the terms of the old as well as the new ordinance with City Engineer Howard Carter and Deputy Health Officer Bartley McIntyre, and come up with an entirely new ordinance rather than an amendment of the old. Action on the ordinance is expected to take place on Oct. 31. Mrs. Zahn passed her vote on this move declaring the ordinance should be ready for next Monday's meeting.

Terms to be incorporated in the new ordinance call for the improvement in ventilating, refrigeration and other mechanical details, hence the reference to the City Engineer for his advice and approval.

A further move in the much debated poultry question was the action of the City Planning and Zon-

Fire Prevention Week Proves Huge Success

All of those red fireman hats you see the small fry wearing around town of late is not an indication that the Davey Crockett style is on the way out but is the result of the Albany Fire Departments Fire Prevention Week efforts.

Fire Chief Fred Pimental passed out the hats to children of kindergarten age and commented "they are a little too young to take part in any poster or essay contest so in this way they feel they are a part of the prevention effort."

According to Chief Pimental this year's program was a tremendous success due in part to the Fire Department canvass of every home in the city. Members of the department rang over 6000 doorbells in passing out fire prevention literature which if read by the householder should prevent fire loss due to carelessness.

The Chief said that to date Albany has enjoyed a very low fire loss and compliments the citizens on this record, but he reminds us that we must not relax but keep driving until a loss from fire is non existant.

The Albany Junior and Senior Chambers of Commerce, and the Albany insurance agents group cooperated in the drive.

Harvest Dance Planned by Church Groups

A blending of autumn and halloween have influenced plans for the harvest dance to be given by the Blessed Virgin Mary Sodality, Holy Name Society and the Ambrosians Club, on Friday, Oct. 21, from 9 p.m. to midnight in the St. Ambrose Parish Hall.

Fifty young men from Parks Air Force Base have been invited and will be guests at this affair.

Murray Petersen and his orchestra will provide the music for this popular annual event through the courtesy and cooperation of the American Federation of Musicians Local No. 6, A.F.of.L.

To him whose elastic and vigorous thought keeps pace with the sun, the day is a perpetual morning.—Henry David Thoreau.

Council Approves Rabies Ordinance

(Continued from page one)

ing Commission on Monday night in returning the proposal for rezoning back to "six story commercial" the property on which the two Albany poultry markets are located--937 and 545 San Pablo Avenues—with a favorable recommendation. This was the proposal suggested by Mrs. Zahn at the council meeting on Oct. 10 and which had then been referred to the commission. The proposal would not effect the two poultry firms now in business, but would prevent the use of the property in the future by any other heavy commercial industry.

The council approved a request that the Albany Bowl be permitted to establish a parking lot across San Pablo from the bowling alley. It also approved increase of the surety bond of City Treasurer Grace Higgins from $20,000 to $50,000 at an additional $90 premium. The sum of $50 was donated to observance of United Nations Day at the request of Judge Louis J. Hardie. Request of the Solano Avenue Merchants Association for a contribution toward its holiday street decoration fund was held over one week in order to permit the Merchants and the Chamber of Commerce to get together on their plans.

The Planning and Zoning Commission also approved the building of a $15,000 warehouse at 1075 Second Street; the construction of a nine by ten foot concrete block building on Sid's parking lot at 817 San Pablo Avenue, and the request of Henry Miller to erect a small sign advertising his painting business at his home, 972 Adams St.

DRIVERS' LICENSES

A grand total of 6,418,616 drivers' licenses were outstanding in California as of June 20, 1955, reports the National Automobile Club. Of this total, 5,966,146 were operators' licenses and 452,470 were chauffeurs' licenses.

WASHINGTON LAKES

There are an estimated 10,000 lakes in Washington State, according to the National Automobile Club.

IT JUST GROWED

That large, round object that sits squarely atop most car engines is known as the air cleaner and it, like tires and windshields, has grown during the past 10 or 15 years. The reason for its increased size, says the California State Automobile Association, is that the new engines with their larger and more efficient carburetors and high repairs gulp air a lot faster than engines did some years ago.

The 1956 De Soto two-door Fireflite Sportsman hardtop takes on new length and thrusting grace with its restyled color sweep and upswept rear fenders. This very popular model last year is expected to reach new peaks of public preference—as well as in performance with its 255 h.p. power plant. The entirely new front end, including a striking perforated mesh grille and built-in parking lights, and new rear fenders with built-in turreted taillight assembly, are but a few of the two dozen improvements in the thoroughly changed new line. The new 1956 De Soto line is now on display at the Muller-Gordon Motor Co., 929 San Pablo Ave., in Albany.
